

THE PRESS.

Cincinnati, Tuesday, March 1, 1889.

All Sorts of Paragraphs.

OHIO STATE CONVENTIONS.—The Republican Convention meets on the 8th of June; the Democratic on the 26th May.

That romantic lady, Miss Judson, who married an African at Pontiac a while since, has returned from Indiana, where she had been with her brother, having got a decree of divorce.

The inauguration of Judge McCandless to the seat made vacant by the resignation of Judge Irwin, took place at Pittsburgh, on Tuesday last.

The Greene County (O.) Agricultural Society have determined to make three dollars, instead of one, the conditions of membership.

The number of miles of Railroad now open in Texas, is 183; besides which there are 113 miles more graded, and 41 under contract.

Recently, at St. Paul, Minnesota, a young lady, said to have become insane from religious excitement, attempted to destroy herself by drinking boiling water from a teakettle. No hope is entertained of her recovery.

Commissioner Reed left Hong Kong on the 8th of December, in the steamer Minnesota, bound for India, en route for America. The American legation was in charge of the Chinese Secretary, D. S. Wells Williams.

A meeting of the stockholders of the Cincinnati, Hamilton and Dayton Railroad will be held March 10, to consider the proposed contract with the Michigan Railroad Company, by which they agree to take \$300,000 of the bonds of the latter road.

Illinois legislators receive \$1 per day at the present time, being \$7 a week less than the board costs. Short sessions will be the result.

Gold has been discovered, it is reported, at Chivale, Ithamas of Tehuantepec.

Lake Erie is so clear of ice that the shipping interest is already beginning to "look up" at Sandusky, Toledo, Cleveland, &c.

An "American Indian Association" has been formed in New York.

Ohio has 2,728 miles of railroad in operation, the construction of which cost over \$110,000,000.

The Columbus, Piqua and Indiana Railroad is nearly completed, there being only ten miles of the track now to lay.

At the close of Professor Mitchell's lectures on Astronomy, in New York, a Provisional Board was appointed for the purpose of taking the necessary steps for the erection of an Astronomical Observatory in the Central Park.

The Empress Eugenie is collecting autographs of the Bonaparte family; she collects every thing they wrote, and every thing belonging to their history. Twenty-two octavo volumes, in elegant binding, as the result of her industry, now enrich her library.

The second-best poem sent in for the Burns' prize was by an American boy named Myers, and the performance is said to be an extraordinary feat for his age as any thing Chatworth wrote. The authors of the poem which carried off the prize (\$250) was a poor sewing girl, twenty-five years old. She is now the Assistant Secretary of the "National Association of Social Science," got up in London by Lord Brougham.

An American in Paris, writing to his friends in New York, says, under date of February 2, "Here the sentiment is almost universal that war must come; that the Emperor is determined upon it; that it may be delayed a little while, but that it is the only termination to existing troubles."

The State of Wisconsin paid for the public printing during the last three years, the sum of \$74,000, viz: \$27,000 for English, \$30,000 for German, and \$17,000 for Norwegian. It is questionable if it be good policy for a government to encourage the perpetration of different languages in the same State.

Many families are literally starving at Beloit, Wisconsin. Some days ago a poor man begged a liver at one of the stores; he was followed to his home, where his wife and children were found devouring the liver raw, there being no fire nor any means of cooking it. In Gratiot county, Michigan, there has also been great suffering, the relief of which the legislature recently passed a bill granting assistance, and, as a first installment, \$3,000 worth of breadstuffs has been hastily sent on to the sufferers.

One of the Michigan County Treasurers, a few days since, left his home, telling his wife he would not be back until the next day. That night he returned to find his wife and children, who had collected, but a traveling peddler, who happened to be stopping there that night, dead and killed him.

An Editor Wanting Sugar.—We give, says the Randolph (Ind.) "Journal," our unequivocal consent to every man in this country, who has a camp of sugar-trees, to pluck in and make all the sugar he can; and then, for twelve pounds of it, we will give a copy of the "Journal" for one year.

THE INDIANA SENATORIAL FIGHT.—If Heffner and Gooding (who recently fought on the floor of the Senate), had not been a couple of cowards, they would have come together in the street or some back yard, instead of seeking their encounter in the midst of a crowded hall, where they knew they could not fail to get themselves separated before the occurrence of any serious damage. It seems they had been contemplating the fight several weeks, and preparing for it.—*Louisville Journal.*

The expenses attending the examination of witnesses, &c., on the investigation of the above disgraceful proceeding, cost somewhat over \$200.

CAUTION TO MARBONS.—Clark Lodge, No. 11, of Springfield, Ohio, thus advertises a neighbor: "One Charles M. Lawler came to our city and obtained money under false pretensions. We therefore proclaim him an impostor, having received a communication from 'Wayne Lodge,' (Fort Wayne, Indiana,) stating that said Lawler had been expelled from all the rights and privileges of Masonry on the 15th of January, 1889."

ORSON.—In the Constitution of this State there is a provision forbidding colored persons from suing in courts of justice. It is moreover provided that "no free negro or mulatto, not residing in the State at the time of the adoption of the Constitution, shall ever come, reside, or be, within this State, or hold any real estate, or make any contract, or maintain any suit therein; and the Legislative Assembly shall provide by penal laws for the removal by public officers of all such free negroes and mulattoes, and for their effectual exclusion from the State, and for the punishment of persons who shall bring them into the State, or employ or harbor them therein."

REVENUE.—A motion was made in the Canadian Legislature, on Monday, for "all correspondence that has taken place between the Imperial Government and the Government of Washington, and the local authorities of any State of the American Union, on the subject of securing for ships built in Canada the same privileges, on becoming the property of American citizens, which are granted to American ships becoming the property of British subjects."

PRINTER'S PRESS.—The Washington "Union" is about to have a succession of two more editors. That's all right. "Biddy" did you put an egg into the coffee to let it?" "Yes, my'am, I put in four; they were so dead I had to use the more of 'em."

A disunion editor asks contemptuously if Senator Crittenden does not rest under the charge of betraying the South in the Lecompton business. Yes, in certain quarters that charge is being the heretic of the day.

The New Orleans papers complain that the bar at the mouth of the river are becoming a more formidable obstruction than ever. We guess New Orleans will have to let them down.

A copy of the "Spiritual Telegraph" having been sent by the publishers to the Hamilton (O.) "Intelligencer," the editor waxed quite wrathful, and thus gave vent to his indignation: "We are obliged to the gentlemen for their attention, but trust that they will hereafter keep their 'Telegraph' at home. We have, at present, a reputation for sanity and sobriety, and we do not want it destroyed by the presence of such a tissue of blasphemous nonsense as this sheet contains. If a pack of fools desire to publish the opinions of a pack of fools, it is no reason they should make a fool of us by reading us their paper." The same editor thus advises the editor of the "Ohio Farmer": "Mr. Brown has our best wishes in his successful labors. If we dare make a suggestion, it is that he discard utterly all communications coming from any writer who has ever attended a woman's rights convention, as having thereby forever forfeited all right to address decent people."

In the Hudson County Court, N. Y., last week, a constable, named McCabe, was fined \$50 and costs, and sentenced to 30 days imprisonment, for using unnecessary violence in the arrest of a woman.

A girl, at Whiteham, lost her speech eighteen years ago by an attack of fever. A short time since a heavy storm of thunder and lightning passed over the village, which gave the system of the young woman such a shock that her speech was restored to her.

The Illinois Legislature proposes to create a commissioner of immigration, to make known the natural advantages of the State, to invite immigration, &c.

Mr. Smith O'Brien landed in New York on Friday last, Feb. 25. "He visits this country," says the "N. Y. Times," solely for recreation and observation, and desires to spend a few weeks among us quietly and unostentatiously, as a private gentleman, and without any display whatever. He ought to be indulged in this rational and sensible preference, and those who may seek to promote their own purposes by interfering with it, will not consult either his wishes or his comfort."

HOME INTERESTS.

Letter Well Worth Reading.—We commend to notice the following, from one of our best citizens:

CINCINNATI, January 24, 1889.

About a month ago I called upon Dr. Ayer, of the "Throat and Lung Institute," 30 West Fourth street, for advice respecting Throat Diseases, though with no faith nor confidence that the Doctor could cure or relieve me, and only at the intercession of my family and friends.

I had been suffering for seven years, and my disease had been growing worse and worse, and extending downward, till the suffering in the bronchial tubes was quite as great, if not greater than in the throat when the disease first began. My suffering was most keen and intense, so much so that even life became a burden. I had tried the best physicians in our city, and given them all ample time, and closely followed their prescriptions, but all to no purpose whatever. I tried many patent medicines, but with no better success. The intolerable burning and pain only increased; and when I called upon Dr. Ayer, I would have been fully satisfied to have paid his very reasonable charge, merely for temporary relief; but the Doctor was confident he could cure me, and it is with great pleasure I am able to say, he has done so. I feel like a new man, and am able to prosecute my business with ease and comfort. The awful distress which I suffered is wholly removed, and, indeed, the great difficulty from which I have so long and keenly suffered has been radically and entirely cured, and cured by Dr. Ayer's Lung.

Medicated Inhalation, which is very pleasant, and this, with the Doctor's other remedies, have cured me to my infinite gratification, and the utter astonishment of my friends. My case is well known, especially in the 17th Ward, and I advise all sufferers, even those who were as much discouraged and faithless as I was, to call upon Dr. Ayer at once, for I cheerfully and cordially recommend him.

DAVID McCALL,
Residence, Seventeenth Ward. Place of business, corner of Western Row and Columbia street.

With pleasure and satisfaction, we direct special attention to the advertisement of the eminent chemist, W. J. M. Gordon & Bro., north-east corner Western Row and Eighth street.

We can speak by the card and by experience of these splendid Tapers. They are beyond all praise! Brimstone must yield to the superiority of these brilliant and beautiful Tapers, which would be in every family in 48 hours, were we competent to convey an adequate description of their unrivaled excellence.

For 10 cents you get a box, enough to last a year, and for one cent, from 70 to 100 young candles. Go and see them.

J. A. Templeton, cor. of Western Row and Fifth, is now taking pictures which are so life-like that they are the admiration of all.

Go to the Broadway Gallery of Art, if you wish to get a fine 25 cent picture.

The best place for Meals, Oysters, Coffee, &c., is at Smith's Dining Hall, No. 201 Vine street, between Fifth and Longworth.

J. Buff, at No. 126 Vine Street, is now prepared to execute, in the best of style, any thing in his line. He also pays particular attention to Renovating and Repairing of soiled Garments. Give Mr. Buff a call.

Harian's New Alabaster Picture is becoming a great favorite among the people. Call and see them.

Go to J. Trechard's Scouring Establishment, 156 West Fourth street.

For a Splendid Picture of any kind or size, go to Ball & Thomas. Their pictures are celebrated all over the country. Don't forget the No. 120 Fourth street.

The Union Gallery, now under the supervision of Mr. Stillman, is one of the best in the city. Stillman's pictures astonish the natives by their beauty and cheapness. Don't forget to give them a call. No. 146, Fifth st.

For a nice colored Photograph, at a reduced price, or a fine Melanotype of yourself or friends, go to Carpenter, No. 20 West Fifth street, between Main and Walnut. Satisfaction always guaranteed.

The New York Sewing Machine Company, of which we mentioned in our first issue, will open their sales-rooms, No. 7 Burnet House building, in a few days; and we would advise all those wishing to purchase a superior Sewing Machine at a comparatively low price, to look to our column in a day or two for their announcement.

For the Nervous.—Try Dr. Toback's Scandinavian Blood Pills & Blood Purifier. Full and specific directions accompanying each bottle of the Purifier and Box of the Pills. For sale at the principal office, No. 6 E. 4th street, and by Druggists and Merchants generally throughout the Union.
